The Hand-Crafted Wood collection

from Karndean International

Sample swatches have been cut from an overall design, therefore decoration and shade may vary. The random nature of wood and other natural materials, from which our designs are taken, means that significant color and design variation is normal and indeed enhances the natural look of Karndean products. We strongly advise that before ordering material, you see a physical sample of your chosen products. While every care has been taken in the printing of this brochure, the colors shown are only as accurate as the four color printing process will allow. We reserve the right to add or delete products from the range or to change patterns and/or textures without prior notification. Calls may be recorded for training purposes. Karndean International owns copyright and protection on all designs.

the
Hand-Crafted Wood
collection

Karndean is proud to introduce a unique product to the Art Select range.

This premium collection replicates the rustic allure of traditional hand-crafted woods and is the first of its kind to be authentically reproduced in customized vinyl.

from Karndean

Hand-Crafted Wood is available in three opulent hickory tones – Paprika, Peppercorn and Nutmeg – each of which features a unique textured surface and angled edges, adding to the effortless realism of this collection.

Unlike any other vinyl product, Hand-Crafted Wood has been developed to realistically replicate the methods used by craftsmen to produce a natural worn look. The highly effective technique of creating texture, richness and uniqueness is visible in every contour of the wood.

Karndean's latest addition to the range is a long term investment for your home. This timeless collection will complement any home's decorative look from contemporary chic to more traditional styles.
